

A Cattle Call in the Form of a Request For Proposals

Application Deadline: August 15, 2002

Holy Cow!

The River City Welcomes CowParade. CowParade is the world's largest premier public art event. From Chicago in 1999, New York in 2000, Kansas City and Houston in 2001, and Las Vegas, London, Australia and San Antonio in 2002, CowParade continues to evolve, not just in size, but also in quality and creativity.

What exactly is CowParade? CowParade is a public art exhibition that places life size fiberglass cows designed and created by host city artists in city landscapes for the public to view and interact with. While the base cow sculptures remain the same, each city's artists are challenged by the creations from the past events, inspired by the cultural influences and history of their cities, and moved by their own interpretation of the cow as an object of art. CowParade is funded through individual and corporate sponsorships that allow a broad cross-section of the host city to contribute. Through these sponsorships, increased tourism, and CowParade merchandise sales CowParade has raised hundreds of millions of dollars for charities, and city governments all over the world.

Now in 2002-2003 the cows are coming to San Antonio to turn our streets into a forum for public art, creativity and innovation. Local San Antonio artists will give CowParade San Antonio a distinct style that will make this event truly belong to our beautiful city. From the River Walk to the Missions to Travis Park this exhibit will be seen by San Antonio residents and tourists alike. This is public art with immense exposure.

Would you like to be one of the San Antonio artists selected to use a cow for a canvas? CowParade San Antonio is accepting proposals from artists who wish to participate in this public art event. Artists whose designs are selected for exhibition will be provided with a life-sized, blank fiberglass cow form and will be paid a \$1,000 honorarium within thirty (30) days of the conclusion of the live auction.

For further information, and to see examples of cows from Houston, New York, Chicago and Kansas City CowParades please visit www.cowparade.net

For further information on the application process please call the CowParade San Antonio Hotline at; 210-595-0251

The Details

Specifications

- While the specific dimensions for each of the three cow poses – standing, grazing, and reclining – is a bit different, the fiberglass cows measure approximately 8' long, 5' high and 2'5" wide and weigh approximately 100 pounds. When placed in public, the cows will be affixed to concrete bases weighing approximately 300 (hundred) pounds.
- The cows are manufactured using a mixture of Class II Fire Retardant Laminating Resin and chopped roving fiberglass over an initial brushed-on layer of polyester gel coat. Then several layers of chopped strand matting fiberglass are hand-laid, wetted with the laminating resin to the point of full saturation. Steel is placed at specific stress points such as where the legs join the torso of standing models and where ears and horns attach to the body.
- The basic cow poses may be altered by the artist, so long as they remain structurally intact. Full details on the recommended method of altering the cows will be provided to artists selected to complete cows.
- Each cow arrives with a coat of primer applied by the manufacturer.

Artistic Designs

- The artist may paint, sculpt, transform and adorn the cow as he or she wishes, but the structural integrity of the cow must not be compromised, and the mechanisms for attaching the cow to its concrete base (at the hooves) should not be altered or obstructed. Cows in New York ranged from those that were simply painted a solid color to others boasting elaborate, intricate designs. Others used mosaic tile and mirrors and some built elaborate costumes to augment the cow shapes. For a better look at some of the designs from New York and Kansas City please refer to the official website at www.cowparade.net.

- Cows are available in three standard poses – standing, grazing and reclining. If your design is selected, we will make every effort to accommodate your choice of cow pose. If your design is specific to a particular cow pose and cannot be altered for another pose, please indicate this on your application materials.
- San Antonio and Texas themes are appropriate and unique interpretations of this subject are encouraged.
- CowParade San Antonio is the first CowParade event that will be held over the winter holiday season, as such, proposals for Holiday themed cows or herds are welcome as well.
- Designs that are whimsical in nature and appeal to children are welcome.

Guidelines

- Cows will be placed in areas fully accessible to the public. Although a few cows may be in indoor locations, most will be outdoors. In creating a design, please consider carefully the weather and other elements of nature, including sun, rain, wind and dirt. We cannot guarantee whether a given cow can be placed indoors or in a weather protected location.
- Additionally, CowParade San Antonio is an interactive event that allows the public to touch and feel the designs. As such, **designs should be created with durability and public safety concerns in mind.**
- Although objects may be attached to the cows, artists should be aware that vandalism can and unfortunately does occur. Any object added to a cow should be attached in such a way that it cannot be easily removed.
- Artists should bear in mind that the audience will be broad-based and of all ages, and designs should be appropriate for public display. **Designs that are religious, political or sexual in nature will not be accepted. Additionally, neither corporate logos nor advertising is allowed.** As outlined below, designs will be evaluated by a Review Panel to ensure they conform to these guidelines. The review panel may reject any design that, in its sole discretion, does not adhere to these guidelines.

Selection Process

- Artists may submit up to two (2) designs and will be paid an honorarium for each design selected for production that yields a Finished Cow approved for exhibition.
- Once the application has been submitted it will be reviewed to ensure that the designs conform to the standards outlined above.
- Once an approved design has been selected for production by a CowParade San Antonio sponsor, the artist will be notified immediately to pick-up their cow. It is possible that you will not be contacted until as late September 5 2002.

Production of Cows

- Artists will produce their cows in their studios or homes. You will be responsible for transporting your cow to and from your studio or workspace. CowParade San Antonio may provide a public painting space for use by artists and will notify the artists should such space become available.
- Specific dimensions for each of the cow poses:
 - Standing Cow – Head Up**
95" long x 29" wide x 57" high
girth – 83" around stomach
 - Grazing Cow – Head Down**
84" long x 29" wide x 48" high
girth – 83" around stomach
 - Reclining Cow**
88" long x 44" wide x 42" high
- Prior to altering the shape of one of the standard cow poses, you must consult the detailed guidelines which will be provided to all artists upon selection.
- The surface of each cow is primed by the manufacturer. Unless you have altered the pose or exterior of your cow, you will not need to reapply a primer. Acrylic paint, artificial resin paint or two-component paint can be used to paint or spray a design on the cows. Items may also be attached to the cow; further guidelines will be provided to artists upon selection.
- To complete the artwork, each cow must be finished with two (2) topcoats of varnish. An exterior grade sealer that is non-reactive, non-toxic, UV-resistant and waterproof is strongly recommended. A minimum of two coats of varnish is required. Either a matte or gloss finish may be used. This step is critical to the ultimate durability of your cow, and cows which are returned unvarnished or which are incorrectly varnished may not be exhibited.
- Artists will not be responsible for the installation or removal of the cows, as CowParade will manage this process. Artists should, however, be available for any possible touch-up work that may be required once the exhibit is underway. If the artist is not available for necessary touch-ups, CowParade may ask another artist to perform the work (refer to copyright assignment agreement).
- All cows will require touch-up and cleaning prior to the auction. Artists are expected to be available to make these touch-ups during the weeks preceding the auction.
- Before a Finished Cow is placed on exhibit, the Cow must be inspected by a representative of the Review Panel. If it is determined that an artist's Finished Cow has been completed in substantial conformity with the artist's approved design, the Finished Cow will be approved, and the artist will receive a \$1,000 honorarium which will be paid within thirty (30) days of the conclusion of the live auction.

Rights/Entitlements

- By submitting your application, you confirm that:
 1. you are the original creator of your design.
 2. you have not copied anyone else's original work.
 3. your design does not infringe on anyone else's intellectual property rights (for example, trademark, copyrights, trade dress, or design patent).
 4. to the extent anyone else has contributed to your design, you shall obtain a signed, written agreement from that person assigning all of their rights in their contribution to you.

Please remember to keep a copy of these forms for your records.
- **If your Finished Cow is approved for exhibition, you will receive a \$1,000 honorarium.** CowParade San Antonio will continue to own the entire right, title and interest in your design proposal, accompanying sketches and all derivative works, including the final work completed on the fiberglass cow. You will be acknowledged as the artist on a plaque attached to the concrete base of the cow and in appropriate publications. However, the copyrights, including the rights to reproduce your design, create copies or reprint your design in books, will be owned by CowParade San Antonio.
